Final Study Guide - Critical Thinking: How to Reliably Pilot Your Own Mind/Pimentel

| | Terms | Skills |
|--------------|--|--|
| Introduction | Critical Thinking, Autonomy, Dogmatism, Vulgar Absolutism, Vulgar Relativism, Consumerism | |
| Chapter 1 | Non-Critical thinking and Uncritical Thinking, Closed System, Subjectivist Systems, Groupthink, Arbitrariness, Confirmation Bias, Open System, Objective Thinking | Identifying Assumptions, writing arguments in standard form |
| Chapter 2 | Projection, Scapegoating, Wishful Thinking | |
| Chapter 3 | Analysis-three parts, definitions, by genus and difference, broad, narrow, connotation, descriptive statements, normative statements, evaluative and prescriptive statements | Criticizing definitions, distinguishing descriptive and normative statements, distinguishing subjective and objective statements |
| Chapter 4 | Nihilism, Ethical Subjectivism, Cultural Relativism, Ethical Objectivism, | |
| Chapter 6 | Clarity, Contrary statements, Inconsistent statements, Contradictory statements, Incongruous statements, syntactic ambiguity, semantic ambiguity, Fairness, Reflectivity, Systematic approach | Identifying ambiguity or vagueness, Identifying propositional conflicts |
| Chapter 8 | Pathos, Ethos, Logos, Rhetoric | |
| Chapter 9 | Fallacies, Appeal to Force, Appeal to Fear, Appeal to Pity, Appeal to the Crowd (people/Ad Populum), Ad Hominem, Missing the Point, Inappropriate Appeal to Authority, Appeal to Ignorance, Hasty Generalization, Slippery Slope, Weak Analogy, Circular Reasoning, Begging the Question, False Cause, Red Herring, Straw Man, False Dilemma | Identifying Fallacies in arguments |
| Chapter 10 | Worldview, Sioux worldview, Materialist worldview, Classical Rationalist worldview, Jewish worldview, Christian worldview, Islamic worldview, Taoist worldview, Existentialist worldview, Late Hindu worldview, Buddhist worldview, Wiccan worldview | |

Final Study Guide - Logic For Beginners

| | | - |
|------------|---|---|
| | Terms | Skills |
| רוומאובו ד | statement, logic, rhetorical question, ought imperative | identify statements, identify non-statements, identify and restate rhetorical questions as statements, identify and restate ought imperatives as statements |

| Chapter 2 | argument, premise, conclusion, premise indicators, conclusion indicators, inference, therefore test, conditional statements, reports, explanations | identify argumantative passages, identify non- argumentative passages, identify conclusions and premises, distinguish arguments from conditional statements and reports and explanations |
|--------------|---|--|
| Chapter 4 | standard form arguments, paraphrasing, subconclusions, | identifying subconclusions, rewriting arguments in standard form |
| Chapter 5 | relevance, deductive argument, math, definition, categorical arguments, hypothetical arguments, disjunctive arguments, inductive, predictions, analogies, generalizations, causal arguments, statistical/probabilistic arguments, authority | distinguishing deductive and inductive arguments |
| Chapter 6 | maximal relevance, validity, invalidity, soundness, unsoundness | evaluating deductive arguments, distinguishing valid arguments from invalid arguments, distinguishing sound arguments from unsound arguments |
| Chapter 7 | partial relevance, inductive strength, weakness, cogency, uncogency, compelling argument | evaluating inductive arguments, distinguishing strong arguments from weak arguments, distinguishing cogent arguments from uncogent arguments |
| Chapter 23 | Inductive arguments, arguments by analogy, primary analog, secondary analog, property in question, weak analogy, | identifying different types of inductive arguments, evaluating argumentative analogies, evalutating inductive generalizations, evaluating causal arguments, evaluating appeals to authority, identifying inductive fallacies |
| Chapter 24 | Rhetorical pitfalls | identifying a variety of rhetorical pitfalls |
| Chapter 25 | Argumentative fallacies | identifying a variety of argumentative fallacies |
| Chapter 26 | Disputational fallacies | identifying a variety of disputational fallacies |
| 5 Chapter 14 | Propositional logic, well-formed formulas, main operator, negation, conjunction, disjunction, material implication, material equivalence, antecedent, consequent | translating statements into symbolic form, recognizing well-formed formulas, identifying the main operator |
| Chapter 15 | Compound statements | Determining the truth value of compound statements |
| Chapter 16 | Truth tables, tautology, self-contradiction, contingent statement, logical equivalence, contradictory statements, consistent, inconsistent | classifying statements using truth tables, comparing statements using truth tables, classifying propositional conflict |

| Chapter 17 | | Using truth tables to evaluate deductive arguments |
|------------|---|---|
| ter (| Common argumentative patterns, modus ponens, modus tollens, affriming the consequent, denying the antecedent, pure hypothetical syllogism, presidential fallacy, disjunctive syllogism, constructive dilemma, destructive dilemma | identifying a variety of common argumentative patterns, using patterns to determine the validity of arguments |
| Chapter 27 | Grid technique | solve logic puzzles using the grid technique, use proof lines to solve logic puzzles, use valid argumentative patterns to solve logic puzzles |
